PROBLEM DEFINITION			
Description of Request: Please run job FRMRXUM2 for GPC, Misty, and Kool against file n:\common\khutch\vr892unm.lst. Please place output in the same directory.			
Reason for Request: Calculation of 1997 STR volumes for these brands for allocation of Period 2A budgets.			
Request Authorized By: <div style="text-align: right;"><i>Karl Hutchison</i></div>			

REQUEST TYPE:

1. **Enhancement** - productivity improvement, new functionality, nice to have feature
2. **Maintenance** - fix program error, new business need
3. **Special Processing** - high volume file maintenance or data correction which is not part of normal processing
4. **Ad Hoc** - reporting requirement which is not part of normal processing
5. **Emergency** - application or technology failure

REASON CODE:

1. **Productivity Improvement** - time savings
2. **Return on Investment** - dollar savings
3. **Customer Impact** - requested change affects B&W's external customers
4. **Government Requirement** - required by law
5. **Business Change** - change in a business process, or implement strategic direction
6. **System Error** - system is not functioning as designed
7. **Procedural Error** - caused by user, scheduling, operations, etc.

REQUEST AUTHORIZED BY - MUST BE AUTHORIZED BY THE DEPARTMENT DIRECTOR OR THE DESIGNATED SYSTEM OWNER BEFORE SUBMISSION TO THE MIS CLIENT SYSTEMS MANAGER.
