

MAY 26 1981

## ADDENDUM I

DAWSON RESEARCH CORPORATION  
Protocol Change Order No. 1

Protocol LRC-5A

Date 5-13-81Subject Change in the time of the Pre-dose Biomicroscopic ExaminationAuthorized by Dr. Connie Stone Date 5-13-81 Method Verbal-Phone  
(Means of communication)Authorized to Mr. Charles Burns

Estimated cost of the study will be:

 increased       decreased       not affected

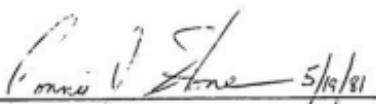

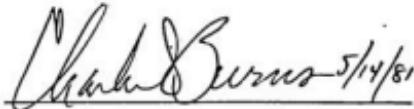

## Description of change order:

Section III. A. 2<sup>nd</sup> paragraph - the first sentence is to be changed to read as follows:

Twenty-four to 30 hours prior to dosing, both eyes of each rabbit will be examined by an experienced investigator using a slit lamp biomicroscope.

The change was made so the protocol more closely conforms with the proposed regulations as stated in the Federal Register, Vol. 44, No. 145, 772.112-24 Primary Eye Irritation Study.
